Services Provided:

The Morgan County Economic Development Corporation (MCEDC) is a non-profit public/private partnership supported by private and public sector investors and governed by a board of directors. MCEDC is responsible for growing the economic base of the community by fostering quality job creation and tax base development, and for retaining existing business and industry in Morgan County. By doing these things we increase the overall quality of life for residents throughout the community. The MCEDC manages a revolving loan fund for business investment, and administers Morgan County's unique incentive program, Morgan County EDGE, which provides financial incentives to businesses that create jobs anywhere in the county.
